Michelle Kone

Microsoft Dynamics AX and CRM | AXPulse
Lincolnwood

Summary

AXPulse enables you to transform your organization and improve performance by adopting the world class ERP Microsoft Dynamics AX. We aim to empower you to respond more quickly and intuitively to changing market dynamics using a dynamic ERP that is Powerful, Agile and Simple.

We understand that business value cannot be achieved through technology alone. It starts with people: experts working together to get to the heart of your individual business objectives and develop the most adapted solutions to fit these requirements. We believe this human-centered approach to technology is what makes the difference for your business.

We believe strongly in specialization, and have oriented our organization structure and professional development processes to create an environment, which develops world-class Microsoft Dynamics AX and CRM experts and helps them succeed. We have business leaders with years of IT industry experience and a proven track record of success delivering Microsoft Dynamics AX and CRM projects. Our leaders' diverse backgrounds and extensive qualifications combine to give AXPulse a truly global perspective.

Our focus is on giving you the clarity to make the right decisions and take the right actions. And our approach is grounded in perspective — the kind that comes from our deep experience working on a wide range of industries. But more important, our perspective begins at eye level — with a clear understanding of your organization, the way you work, your goals and your challenges.

We work hand-in-hand with our clients and Microsoft Dynamics community to create and deliver business and technology solutions that fit their needs and drive the results they want.
